Made to work...

about us

Lindi was established in 2005 primarily to manufacture workwear clothing in the SK.

We pride ourselves on our quality, service and technical expertise.

Today we import a wide range of different clothing and are one of very few companies still manufacturing from the SK offering a comprehensive service for our customers from design assistance through to finished garments.

We are confident that once you see what we can offer in terms of manufacturing capabilities and flexibility, we can begin to build a long term relationship which will further enhance both our businesses.

why choose us?

Our priority is to make sure we fully understand the requirement and encourage creative input from our customers to make sure we get it right. Our customers can go as far as having bespoke fit patterns produced to compliment the end use of the garment.

Basic in house designs are available along with fabric samples before any decisions are made, moving onto design boards if required.

We work with an extensive range of fabrics from basic cottons, poly-cottons and polyesters through to technical fabrics such as breathable laminates, high visibility and flame retardant fabrics. Sampling and trial services are available.

We offer technical expertise in areas where safety is paramount.

SK produced top up orders and special measure garments are available to compliment our off shore production.

full bespoke service

Corporate image is everywhere. In today's competitive market, standing out from the crowd has never been more important. Clothing gives the ideal opportunity to promote beyond the conventional methods.

Bespoke and made to order styles have always been and remain to date our primary focus. With a SK made and import offering, our flexibility is second to none. We can take care of any logo requirements to reduce the handling and therefore reducing the cost to our customers.

Need a 2 or 3 tone garment?
Want to add reflective tape?
Need extra pockets?
Is an ID pocket or logo pouch required?

Whatever the requirement,
LINDI can provide the solution.

workwear

Workwear has evolved over the years from a basic pair of jeans to the wide range we see across all industries today. With the growing demand for companies to promote their identities, it has become an integral part of our business. We understand that workwear needs to be of high quality, durable and comfortable to withstand the working environment. Working with established fabric suppliers, we are able to offer a suitable solution for all requirements. All other garment components are selectively sourced ensuring a consistent high standard of performance.

Products (Examples)

- 2 & 3 layer laminates
- Poly cotton
- 100% cotton
- Flame retardant
- Anti static
- Different weights and finishes
- Yellow, red or orange high visibility colours

flame retardant / anti static

Due to the hazards that a wearer faces, design plays a major part in this field. A simple pocket construction can determine whether a style passes or fails and if not manufactured correctly, can endanger lives. We regularly advise our customers on the suitability of design depending on the end use. Having carried out an extensive testing program we have certified a wide range of fabrics encompassing inherent and treated.

Products (Examples)

- Coveralls
- Trousers & over trousers
- Workwear jackets
- ¾ length jackets
- Bomber jackets

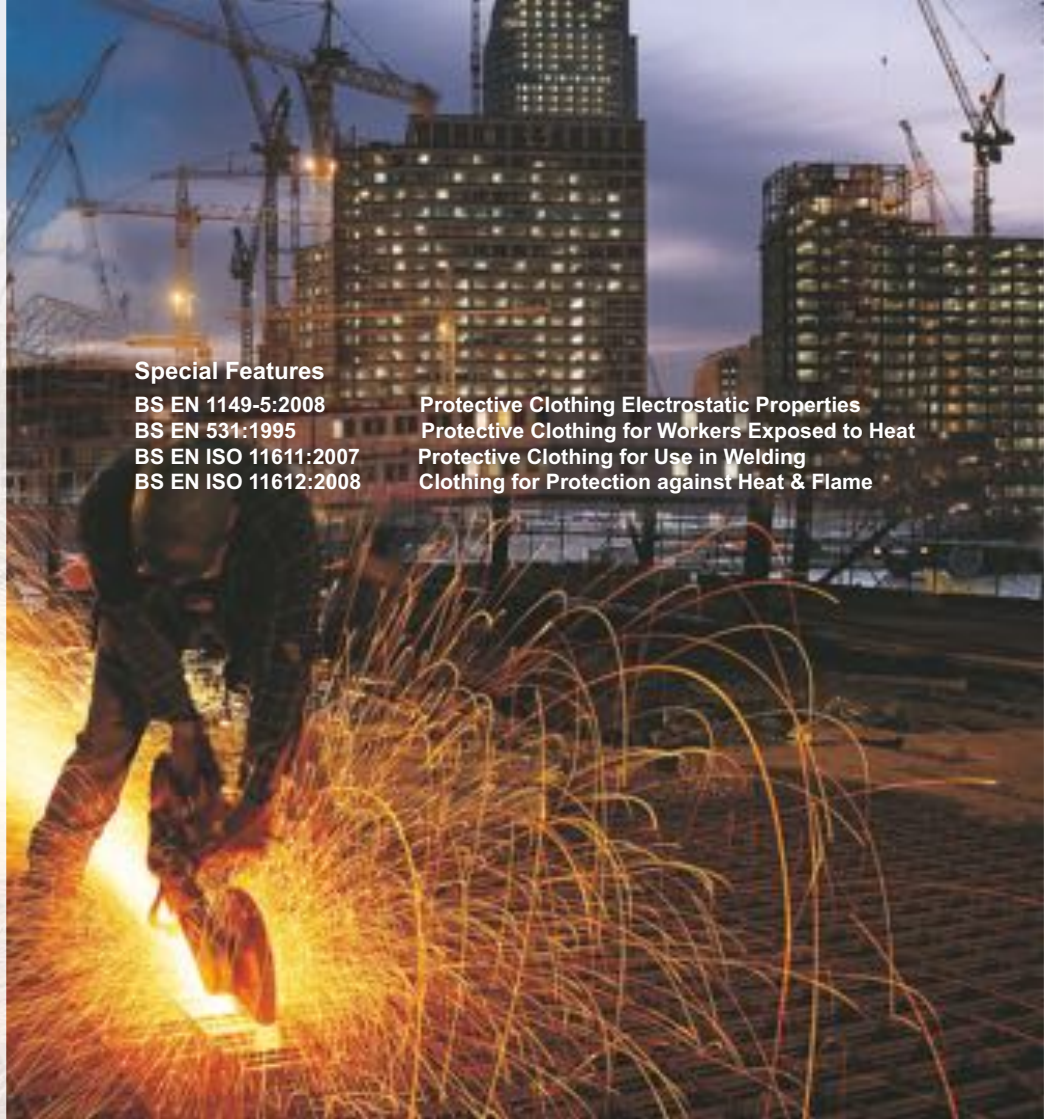

Fabrics

- Inherent & treated
- 100% cotton
- Polyester cotton mix
- Mod acrylic
- 100% polyester

- Polyester Cotton
- 100% Cotton
- Antibacterial Finish
- Stain resistant Finish

casual wear

Clothing that allows the wearer to feel comfortable at work whilst still projecting a professional image. We can provide a high quality, durable alternative to the “off the shelf” products we have all become used to. Our made to order service offers a variety of design ideas and colour ways to ensure maximum identity promotion within the work place.

Our flexibility in terms of design and minimum order quantity allows smaller businesses to benefit from a bespoke image. We can offer embroidery and printing solutions to provide a fully finished garment.

Products (Examples)

- T-shirts
- Polo shirts
- Sweat shirts
- Fleece jackets

Fabrics

- 100% cotton
- 100% polyester
- Polyester cotton
- Standard and technical constructions

other services

To further compliment our comprehensive product offering, we also offer a range of accessories made to order. Our customers also benefit from our re-processing service where we can alter or enhance garments if required.

This can include the following:

- Alterations
- Embroidery
- Printing
- Badges
- Re-labelling
- Application of reflective tape
- Adding ID pockets
- Addition of extra pockets

Accessories

- Kit bags
- Arm bands
- Hat covers
